## Cor Salon for the Milan Design Week

Monday, 15.04.2019

The historic architecture of the Circo Solferino focuses on the innovative interior design of the premium brand made in Germany. Photos: Cor

*Since the 1980s, the internationally renowned manufacturer Cor has exhibited its high-quality seating and upholstered furniture in Milan. From 9 to 14 April, he successfully presented his own salon at the Circo Solferino in Brera for the first time.*

With the new furniture programs "Nenou", "Alvo" and "Avalanche", international design studios such as Jörg Boner, Jehs + Laub and Metrica have interpreted Cor's passion for innovative design, high-quality

materials and the finest manual workmanship. As an aesthetic triad, the elegant exhibits were staged in multiple perspectives, with a stylish variety of colors and materials.

Around 3,000 visitors from all over the world, including numerous architects and interior designers, were fascinated by the exclusive show. Cor owner Leo Lübke: "Our passion for cultivated living and living has set new standards in Milan, to be continued."
