***More than 280 exhibitors from 25 countries presented their news and trends from the 28th of February to the 2nd of March in Atlanta for the first issue of the Domotex USA.***

Around 57% of the exhibitors were North American flooring manufacturers, while 43% of the trade fair was attended by international companies. As an extension of the world's leading trade fair for carpets and floor coverings, the Domotex in Hannover, the event celebrated its inauguration in Atlanta as an important creative, international and inspiring exhibition for the North American market.

"The Domotex USA presented all the passion and innovation of international flooring manufacturers in an intimate, artfully curated space at the Georgia World Congress Center," said Larry Turner, CEO of Hannover Fairs USA (HFUSA), the event organizer. "It presented the latest products and trends in the flooring industry and, above all, made important new business connections. A promising start. "

The next edition will take place from 5 to 7 February 2020.
