***The Rauch Möbelwerke have joined the Furniture Club. "The extensive international experience of Rauch creates additional potential for synergies between the Furniture Club members," the association says.***

"The Rauch Group has been successfully active internationally for many years. International business makes a significant, above-average contribution to growth. Rauch is constantly in the process of expanding its sales scope. I am convinced that in addition to very good products, we also benefit from a strong international network. Furniture Club brings together innovative, high-performance companies and interesting personalities. That inspired us from the beginning. In doing so, we also want to make our contribution to mutual success," says Dominik Tanner, Director International Sales at Rauch Möbelwerke.
