***In the financial year 2018, Häcker Kitchens achieved sales growth of 9% to 602 million euros (2017: 553 million euros). With this strong result, the positive development of recent years has continued.***

The growth in the German market was particularly pleasing with 11% to 368 million euros (2017: 332 million euros), as stated in a press release. The export business also developed positively with growth of 7%. The export share, at 39%, is now 234 million euros.

The growth is also reflected in the numbers. With more than 2.3 million cabinets produced, the increase was a good 9% over the previous year. At Häcker Kitchens, 1,738 employees now have success (2017: 1,551).

In order to continue this development, Häcker Küchen is forging forward-looking projects.

The construction progress for the additional production plant in Ostercappeln / Venne is proceeding on schedule and will expand the possibilities of Häcker kitchens from 2020 again.
