*At the beginning of the year, Kettler has always focused on presenting its products at the major international trade fairs. The company is currently showing a selection of the extensive office and garden furniture range at the imm cologne.*

Among them is the student desk "Maze", which was awarded the "German Design Award" last November. "The award by an independent institute gives the consumer orientation in the large number of offers on the market. The student desk 'Maze' has been designed, developed and produced here in our Werl and Ense works. Therefore, this award does not only apply to the product, but also to the team," says Stefanie Risse from Kettler.

So far, the company has been extremely satisfied with the days at the imm cologne. After the very challenging months, Kettler is pleased that the customers continue to place their trust in the company and

have appeared in large numbers on the stand, as the company informs. The order situation is very satisfactory.

Next stop for Kettler is the International Toy Fair in Nuremberg from January 30 to February 3. Directly followed by the ispo in Munich from 3 to 6 February.
