Artisanal perfection, innovative functions, competence for comfort and last but not least the unique and beautiful design convinced the jury: Sofa "Monroe" and the dining models "Octopussy" and "Schwof" of the Upper Franconian upholstery manufacturer Koinor won the German Design Award.

Model "Monroe" belongs to the product line Smart Living. Discover your home. Comfort, maximum functionality and a no-frills design form a harmonious connection. This piece of furniture is transformed in a variety of ways and at the same time the entire atmosphere of the room. The individual elements mounted on a plateau are movable, rotatable through 360 ° and adapt to any relaxation position.

The dining program "Octopussy" is extraordinary in form, materiality and appearance. The Z-shaped design makes the furniture seem almost floating without losing its stability. For extra individuality ensures the fine circumferential Kántchen seam. The chairs "1001" with turntables and the tables from the dining assortment are the perfect complement.

The dining model "Schwof" won the German Design Award in the Special Mention category. In this individual communication furniture, modern design meets the highest quality materials. The soft-cubic individual seats can be moved to the left and right to move and turn according to your mood by up to 360 ° the conversation partner or open up a whole new sense of space. The individual elements rest on a solid wood plateau or a plateau in hand-filled concrete look, which is supported by noble runners in fan or "Schwertkufendesign".
