The Möbelmeile, an inhouse fair association, draws a successful balance after the 2019 edition of the event. The 14 companies from the segments living, sleeping, dining, cloakrooms, offices, children's rooms and more recently also bathrooms in the Rietberg, Wiedenbrück and Oelde areas opened their doors for five days to trade visitors, purchasing commissions and journalists. They presented the whole variety of current and future interior trends on more than 20,000 square meters of exhibition space. With the event, the organizers were very satisfied, it has met with many visitors from home and abroad all expectations. In particular, the visitors had once again experienced a "great atmosphere": "It is a very unique feature of our trade fair that individual exchanges are important to us. In contrast to large furniture fairs, we place a special focus on a pleasant and personal setting for discussions," emphasizes Michael Laukötter, Managing Director of Möbelmeile.
