

ZOW

"Great ideas in a small space"

Tuesday, 17.09.2019

From 4 to 6 February 2020, ZOW, Germany's trade fair for furniture production and interior design, will take place in Bad Salzuflen.

The workshop character of the fair is the basis for three days of pure business. Targeted discussions, project-related work and efficient networking are clearly in the focus here - and this with free admission. ZOW makes professional work as easy as possible.

One of the biggest challenges for the industry today is the global demands that are being made by dwindling housing.

The special show "[Tiny] Spaces: From Square Meters to Shared Meters" deals extensively with solutions to this challenge, as well as with the trend towards shared and multifunctionally used spaces. For this purpose, three living situations are created in order to make solution-oriented and pragmatic approaches tangible.
